Seconded by J. Quantz

CARRIED

3. CSA Standard Proposals for new preservatives

Chairman T. M. introduced the issues related to standard development. Proposed strategy is to use a “best-efforts” approach in developing standard.

Attachments:

-080.zz3 draft that went through public review period

-handout (080.32-97 prepared by F.B.) is revision of 080.32 after conference call (as a result of public period review). This and 080.36 will be addressed at CSA Technical Committee.

080.32 is for deep sapwood species & above-ground applications

F.Brudermann (comments on handout he put together)

- Omission : did not include ACQ and CA-B retentions for deep sapwood species :
CA-B (retention 1.7 kg / m³) ACQ at 4kg/m³)

This is the standard that will be discussed on Thursday in the CSA meeting. It addresses the above-ground applications.

In-ground application problems (from public review period) have yet to be addressed. The committee will review data and report back to the membership as required.

4. COMMENTS FROM MEMBERS

Nil.

5. MOTION TO ADJOURN

Motion by C. Wilson to adjourn and seconded by Ray Stewart.
